A 64
1869

WE take great pleasure in offering to our customers a complete Illustrated Trade List of Foreign and Domestic Stationery. It will be found invaluable in ordering goods, the different varieties of an article being all together, and each separate variety indexed, so that any article of stationery, however insignificant, can easily be found by referring to the index.

Special attention is called to the most complete illustrated list of inkstands ever published. Each inkstand bears its proper number or description, and price by the dozen. Merchants are enabled by this list to order a stock as well as if they were buying from samples.

Many of the lists herein are not priced, for good reasons, but the articles contained in them will always be sold at the lowest rates; and from manufacturers' lists the best discount will be given.

All goods priced in gold will be sold at gold prices, or its equivalent in currency, on the day of sale.

We have lately commenced the manufacture of Blank Books for stock and to order. Our great facilities enable us to manufacture these books of a very superior style and quality, at the lowest rates. We make up to order every thing in the way of Check, Note, and Draft Books, Bill Heads, Letter and Note Headings, Circulars, &c., &c., printed or engraved, in the very best manner.

We are Sole Agents in the United States for the celebrated Steel Pens of Harrison & Bradford. These pens are of a finer quality, more durable, and cheaper, than any pen in market. Special attention is called to the following grades, as being better suited for business purposes than any pen ever before manufactured: the "505" Pen, and the "anti-corrosive" Pen.

Buyers both of Books and Stationery, are specially invited to call at our new, spacious, and well-lighted warehouse in Grand Street, and examine our varied and well-selected stock of books and stationery. It is our intention that wholesale buyers of books and stationery shall be enabled to buy all their goods at one place.

We buy for cash, in large quantities, and at the lowest rates, and sell for cash, at manufacturers' rates and discounts.

D. APPLETON & CO.

NEW STYLES OF

Writing Papers.

FOR

AUTHORS, EDITORS, AND CLERGYMEN.

We beg leave to call attention to our new styles of Writing Papers, especially designed for the use of *Contributors, Authors, Editors, and Clergymen*. Heretofore it has been necessary for all persons writing for the press to prepare their own paper, or use some form of writing paper in the market which at best is very imperfectly adapted to the purpose.

Author's Manuscript.....	per ream, \$2 25

MABIE'S PATENT PEN AND PENCIL CASES.

DESCRIPTION.

Figures 1 and 2 represent the mechanism of the Pen and Pencil—Fig. 1 is the Pen, consisting of three hollow tubes; the outer is the case, and has a straight slot for extending the same, pivoted to Tube A. The Tubes A and B rotate on pivot C, which is attached to the usual shaped point, and forms the centre of two worm-shaped slots, for sliding the Pencil out and in. Fig. 2 simply shows the tubes A and B separated, so as to more clearly represent the slots.

- No. 1. D'ble Slide, 14 c. Case, Die Stone Head and Ring.

E. L. FARGO'S

Perpetually Moist Letter Copying Book.

D. APPLETON & CO., Sole Agents.

UNDER M. W. BROWN'S PATENT, DATED JAN. 27 1868.

—♦♦♦—

This book is designed to take the place of the ordinary Copying Book, doing away entirely with the Water-bowl and Brush. It is always moistened, and ready to take any number of copies at once.

The advantage of this invention, to Express Companies, Bankers, and Business Men generally, is very great, and, if once properly tested, would entirely supersede the old style.

The book is in extensive use in this city, and has attained a large sale throughout the United States.

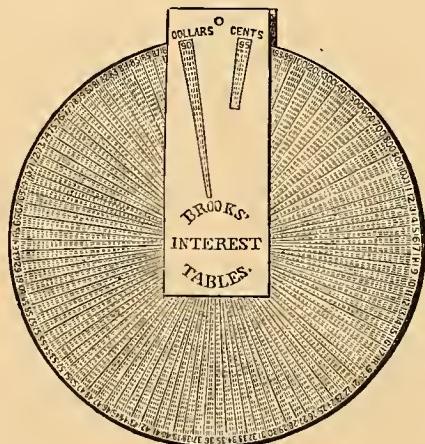

We manufacture a new Carbon Fluid, which is specially adapted to the use of this book, and with which the most perfect copies can be taken.

BROOKS'S INTEREST TABLES.

PATENT BILL FILE.

PATENT INITIAL STAMPING PRESS.

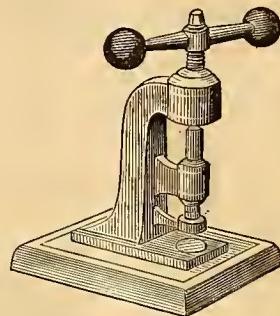

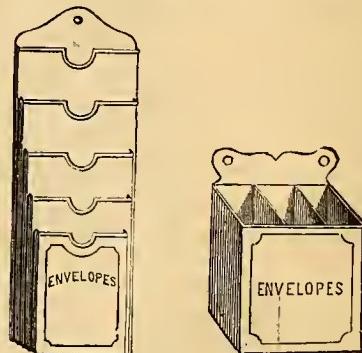

It has now become a necessity for every Retail Stationer to Stamp his own Note Paper and Envelopes.

To meet this necessity we have manufactured a Press for Initial Stamping, and supply dies and colors.

The above illustration of the Press will enable one to form a good idea of it, and, being very simple in construction, a person is able to understand its movements, and acquire the art of Stamping with very little study.

Press, with Movable Box.....	\$75 00
